EDUCATION

The University of Texas at Austin, Austin, TX — May 2028

Bachelor of Science | Biology | GPA 4.0 | Deans Scholar | Business Minor | UT AI Machine Learning Certificate

RESEARCH

MD Anderson Cancer Center/LBJ Hospital, Houston, TX — Jul 2026 – Present

Undergraduate Research Assistant, Dr. Hilary Ma

- Adapting an MD Anderson goal-concordant care questionnaire for quality improvement at LBJ Hospital
- Reviewing literature on prognosis awareness and care-goal discordance to guide questionnaire designs

UTHealth Houston, Department of Anesthesiology, Houston, TX — May 2026 – Present

Research Assistant, Dr. Jamal Hasoon

- Authored figures and drafted the Diagnostic Practices results for a national interventional pain survey
- Contributing to a case series on cocaine-positive urine drug screens and telemedicine utilization study

Biomanufacturing Lab — Aug 2024 – December 2025

Freshman Research Initiative

- Engineered recombinant bacterial systems to express and secrete proteins using plasmid-based vectors
- Presented a research poster on optimizing extraction of algal pigment-proteins for sustainable textiles

Biomanufacturing Lab — Aug 2024 – December 2025

Freshman Research Initiative

- Engineered recombinant bacterial systems to express and secrete proteins using plasmid-based vectors
- Performed molecular biology techniques such as PCR, gel electrophoresis, and bacterial transformation
- Gained exposure to biotechnological methods relevant to pharmaceutical innovation and development

Demographic and Socioeconomic Factors of COVID-19 — Jun 2020 – Aug 2023

Summer Stem Institute Program

- Developed a machine learning model (multiple linear regression) to predict COVID-19 rates per county
- Gained hands-on experience using Python and Google Colab for data cleaning and model development
- Authored and published paper in the International Journal of High School Research (IJHSR, Vol. 5, Iss. 1)

Effect of U1snRNA Mutations at the U1C binding site in U1snRNP Biogenesis — Jun 2023 – Jul 2023

Welch Summer Scholar Program

- Analyzed the impact of U1snRNA mutations on mature U1snRNP formation and spliceosome assembly
- Shared findings at the ReSULTS Conference (Nov 2024) and Kappa Rho Research Symposium (Apr 2025)
- Presented at the FURS Science Slam, named Award Winner in Gene Expression & Regulation (Oct 2024)

MEDICAL EXPERIENCE

Kesem Nationals, Austin, TX — Jan 2025 – Present

Health & Wellness Team Intern

- Updated and created onboarding material for Health & Wellness Team members and future volunteers
- Analyzed current data to individualize recruitment practice and promote long-term volunteer retention
- Maintained database of nurse staffing agencies across the nation and camp-related legislation by state

St. David's Hospital, Austin, TX — Aug 2024 – Present

ER Unit Aide

- Delivered routine patient care, including taking vitals, performing EKGs, and assisting with wound care
- Communicated patient needs to nurses and served as a liaison for clinical staff, aiding team-based care
- Observed triage process, gaining insight into emergency procedures and clinical technology application

Freeman Medical Clinic, Austin, TX May 2025 – Aug 2025
Certified Medical Assistant

- Scheduled visits and managed electronic health records (EHR), supporting streamlined clinic operations
- Assisted with daily medical procedures, including urine drug tests and semaglutide/Ozempic injections
- Conducted research on testosterone and Type 1 Diabetes to develop evidence-based guidelines for use

HONORS AND AWARDS

FURS Science Slam Award Winner, 2024**; Kappa Rho Premedical Society,** 2024 – Present**;**
Valedictorian, *Memorial High School*, *2024***; Presidential Service Award,** *2020 – 2024*

ADDITIONAL INFORMATION

Technical /Computer Skills: Microsoft Word, Excel, and PowerPoint, Python, Google Colab
Languages: Conversational & Medical Spanish, Conversational Chinese
Certifications: CCMA, BLS, CPR, HIPAA Compliance Training, COVID 19 Contact Tracing Course, Microsoft Word
Interests: Pilates, Mangoes, *The Greatest Showman*, Doodling, Banana Bread, Brain Teasers, NYT Connections
